Biographical Sketch

Biographical Sketch:

Dr. Ruth O'Hara is an Associate Professor in the Department of Psychiatry and Behavioral Sciences, at the Stanford University School of Medicine. Dr. O'Hara's research aims to better understand the role of genetic and neurobiological factors in explaining the relationship between sleep disorders and psychiatric outcomes. In particular, she investigates the contribution of sleep apnea to neuropsychiatric and neurocognitive disorders in late life and she is a member of the DSM-V Sleep-Wake disorders work group. Dr. O'Hara is also Associate Director of the Sierra Pacific Mental Illness Research Education and Clinical Center, Director of the VA National Post-doctoral Fellowship Program in Advanced Psychiatry and Psychology, and recently Co-Chaired the National Dementia Clinical Care Committee for the Department of Veterans Affairs.

Author or co-author of over 70 peer-reviewed publications, Dr. O'Hara also serves on the editorial board of the American Journal of Geriatric Psychiatry, the Journal of Psychiatric Research, and the Clinical Gerontologist. She has served as ad hoc reviewer for NIH and has been on the advisory board of the Alzheimer's Foundation of America, and the Brookdale National Leadership Humanities, Policy, Behavioral Sciences and Social Sciences Advisory and Review Board.

Dr. O'Hara received her Ph.D. from the University of Southern California, receiving additional training in geriatric neuropsychology and neuropsychiatry at the Neuropsychiatric Institute, Los Angeles. In 1993 she was awarded a Brookdale National Fellowship in Aging.
