

## APA DSM-V Task Force Member Disclosure Report

Name : Helena C Kraemer, PhD  
Job Title : Professor  
Address : 401 Quarry Rd  
Palo Alto CA 94304-1419  
Role : **Member**  
Date : **5/2/2011**

### Task Force:

Task Force on DSM-V

### Biographical Sketch

#### Biographical Sketch:

Dr. Kraemer received her bachelor's degree in Mathematics from Smith College (Summa cum Laude, 1958), did her first year of graduate study in Statistics as a Fulbright scholar at the University of Manchester, England, and then completed her doctoral studies in the Department of Statistics, Stanford University (1962). She joined the Department of Psychiatry and Behavioral Sciences at Stanford in 1964. Her primary interests concern the applications of biostatistics in the behavioral areas of medicine. In 1964, that seemed largely concentrated in psychiatry, but in the years since, she has worked in Cardiology, Pediatrics, Radiology, Oncology etc., as behavioral issues have become more prominent in all areas of medicine. She is a Fellow of the American Statistical Association, and a member of the American College of Neuropsychopharmacology. She was elected a member of the Institute of Medicine, Academy of Sciences, in 2003. She was also the recipient of the Harvard Prize in Psychiatric Biostatistics and Epidemiology in 2001. She has published more than 300 papers in peer-reviewed journals, and 3 books. She has served as associate editor or on the editorial boards of Statistics in Medicine, Psychological Methods, Archives of General Psychiatry, Journal of Child and Adolescent Psychopharmacology. Her major recent research interests concern the use of statistical methods in risk research, specifically the focus on moderators and mediators, the use of effect sizes to indicate clinical or practical significance to replace the overuse and abuse of statistical significance, and, in general, identifying and trying to rectify common problems in the application of statistical methods in medicine. She became Emerita in 2007, but continues to be active, having served on the NIMH Council, serving on the DSM V Task Force, as well as consulting at various universities.

The table below represents the disclosure for Dr. Helena C Kraemer, PhD of significant interests and affiliations for the three years prior to the DSM Task Force or a DSM Work Group member nomination and the period prior to public announcement of his/her appointment. The table also represents the reported disclosures of significant interests and affiliations for the past full calendar year and the current year to date for Dr. Helena C Kraemer, PhD.
