Biographical Sketch

Biographical Sketch:

Nancy Frasure-Smith received a PhD in Social Relations from the Johns Hopkins University and completed an NIMH Post-Doctoral Fellowship in Psychology at McGill University. She is currently Professor of Psychiatry at McGill University, Senior Research Associate at the Montreal Heart Institute, Adjunct Professor of Nursing at McGill University, and Invited Researcher at the Centre hospitalier de l'Université de Montréal (CHUM). Her research, conducted in conjunction with Dr . François Lespérance of Université de Montréal, examines the importance of depression and other psychological and social factors in the development and prognosis of cardiovascular disease, the physiological and behavioral links between depression and cardiovascular disease, and developing and evaluating interventions to change the impact of the depression and other psychological factors in cardiac patients. Recent publications have appeared in the Archives of General Psychiatry, JAMA, and Biological Psychiatry.

The table below represents the reported disclosures of significant interests and affiliations for the past full calendar year and the current year to date for Nancy Frasure-Smith.

Dr. Nancy Frasure-Smith has agreed that, from the time of approval through the publication of DSM-V, projected in 2012, (his/her) aggregate annual income derived from industry sources (excluding unrestricted research grants) will not exceed \$10,000 in any calendar year.
